

# ATACseq peak and PROseq Gene correlation

0 – 15 kb up- or downstream of gene

ATACseq classification

Freq

7.389056

2.718282

1.000000

PROseq gene is subset of genes that where identified using PROseq data  
 ATACseq peak is subset of peaks that where identified using ATACseq data  
 Peak is 0 – 15 kb up- or downstream of gene
